**Raise your standards**

## **Thank you**

We would like to take this opportunity to thank you for your interest in our French lessons. We have crafted this brochure to give you a detailed overview of our services. We hope you will choose us to be on your side for your learning journey but whatever your final decision we wish you the very best on this wonderful adventure of becoming a better version of yourself.

# Bespoke curriculums

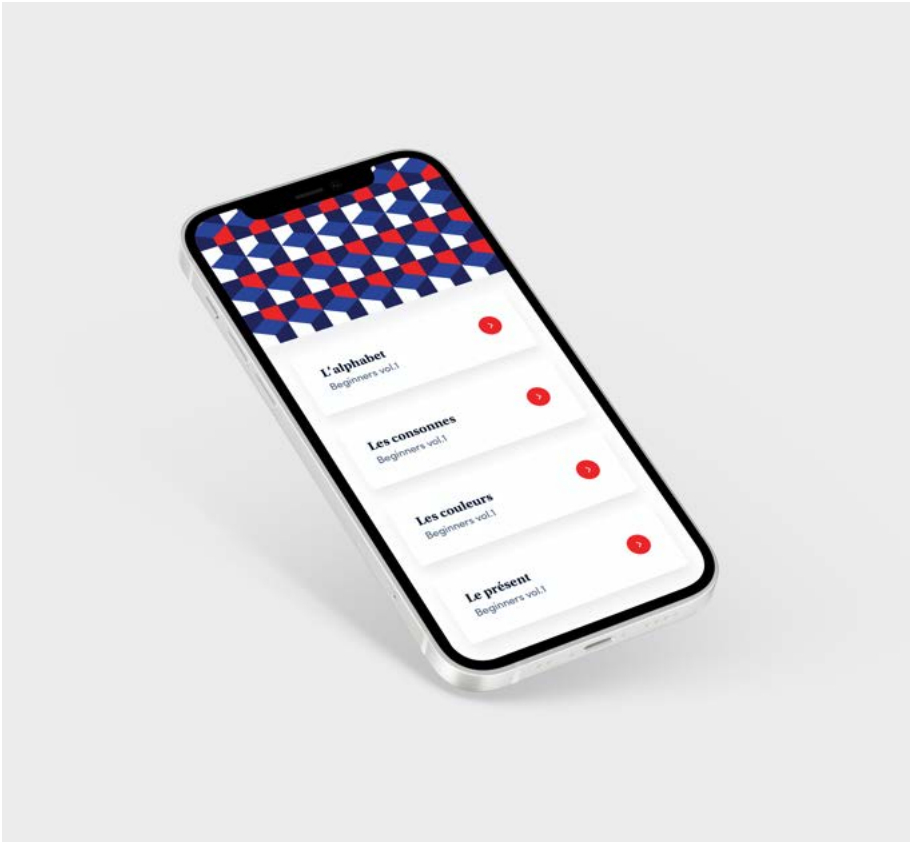

When you choose to learn with Anais and Co, we create a unique curriculum based on your needs, goals, and existing knowledge of the language. The curriculum is your key to success as it allows you and your teacher to focus on what is essential and serve your goal of speaking French.

# Unique and proven method

Anais and Co curriculums are backed up by the unique method we developed over the last ten years. We designed it to be logical while remaining fun. It mixes conversation, vocabulary and grammar (that we teach in your mother language until your understanding of French is advanced enough). We strongly believe that having a method should not be an option. It might sound less appealing than saying you can learn like a child or become fluent in 3 months by memorising words, but we have your success in mind.

# Structure and diligence

While every lesson is different, they all have something in common: the detailed teacher feedback. During each session, your teacher discreetly takes notes following an internally developed framework. You can find these notes afterwards in your online folder. They will allow you to revise and improve on specific points should it be required.

# Recruited tutors

All our native tutors are hand-picked and recruited. They constitute Anais and Co jewels and are cherished to ensure they deliver the best to you while serving your goal of speaking French correctly. Being all part of the same team gives you the unique opportunity to change temporarily or permanently whenever you want to experience different accents or teaching styles.

# Trained tutors

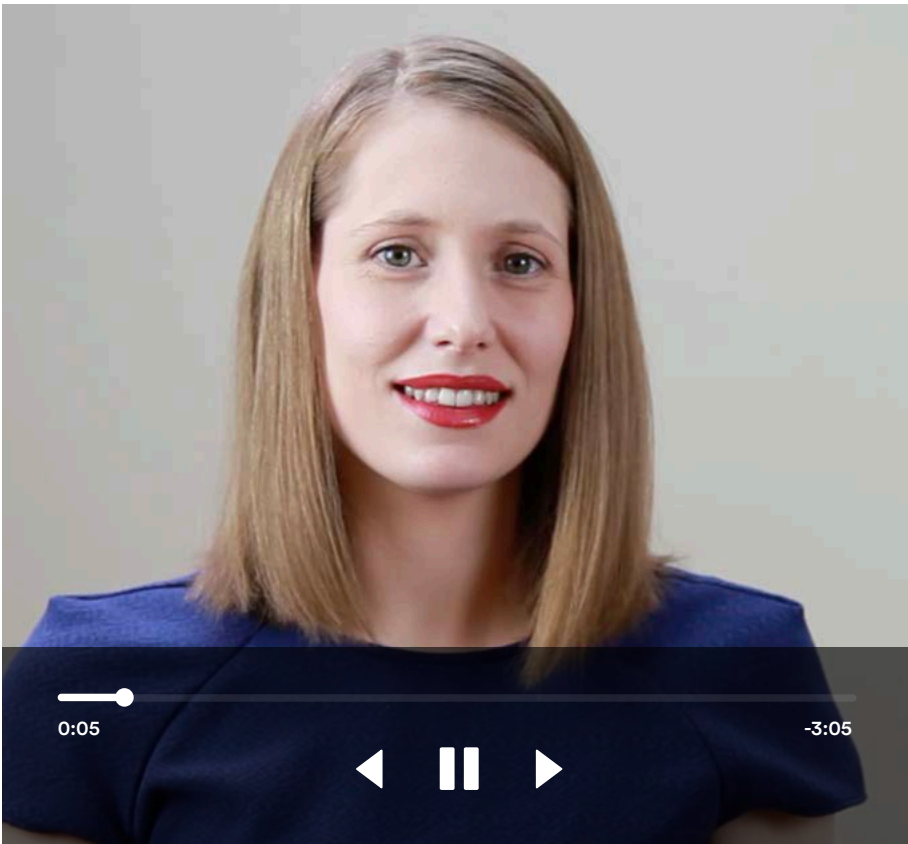

All our native tutors receive thorough training when they start. The training does not stop at the first lesson, and we pride ourselves on offering continuous support. We also offer our teachers the opportunity to improve the method and contribute to the weekly video publications if they wish to do so.

# Proprietary materials

Anais and Co tutors are using exclusive material that we developed internally. We have a collection of 8 books that we enrich every year. If you require to study specific materials for exam preparation, we will recommend our team’s most experienced teacher for your goal and happily use the requested materials.

# Intuitive videos

We started a new collection of videos based on the Anais and Co lessons. The videos will give you the unique opportunity to revise specific subjects after the sessions with your tutor.

# Online lessons

The lessons are given by Anais and Co French natives tutors.

They are experimented and have received an intensive training in the Anais and Co method. The lessons are delivered online using Google Meet or Zoom.

Special offer: Up to 15% off your first invoice.
